

To our valued customers and business partners;

It is our sincere hope that dealing with the COVID-19 pandemic over the past three months has not created too much of a problem or issue with you operating your business and that your staff has remained, and is, safe and healthy.

We at Langley Concrete have been successful in keeping the virus out of our operations and can confirm that we have not had an employee with a confirmed case of COVID-19 at any of our facilities or offices.

We are fully operational; our plant production levels are at normal summer pace and we are not expecting a shutdown at any of our locations in the imminent future.

As a company we continue to promote effective virus prevention protocols internally and have utilized further steps to prevent the spread of the virus at our facilities in line with the requirements of Worksafe BC and the BC Ministry of Health.

*Please be aware we have chosen to maintain and will continue to enforce a restricted access policy in all our yards until further notice.*

*These policies require your employees wishing to pick up product to place their order prior to arriving at our yard locations and have a valid Delivery Note for access and to be loaded.*

*Though we understand that the Covid crisis has eased significantly we feel it necessary to maintain a high level of vigilance to prevent our operations facing the risk of shut down due to the spread of the virus in the future.*

We appreciate your business and support and hope that you and your employees understand our motivation in keeping our business operations safe and healthy both for us and your staff as well. We recognize that our policies may result in inconvenience in some instances. However, we feel it necessary to ensure the overall safety of our organization, so we are available to service your needs.

We continue to encourage all our customers and suppliers to continue in the effort to control the spread of COVID-19.

Thank you for your ongoing support of the Langley Concrete Group. We wish you all health, safety and prosperity as we work through this challenging situation.

Best regards,

Mark Omelaniec
